

Excel Hacks Lab

Please note that this Lab assignment is *in addition to* the Lab Check that is performed at the end of class. It is also *in addition to* the Excel Hacks Homework. It is further practice in the lab techniques discussed in class.

→ Please complete the following labs, available online on the Evergreen website

- [Back to back](#)
- [Dumbbell dot plots](#)
- [Indicator Dots](#) (in the event that we don't complete it in class. Hopefully we will.)

General Instructions: Submit your Excel spreadsheet, with separate tabs clearly labeling each graph. Name your file: ExcelLabAssignment-*studentName*. If more than one student is submitting the same assignment, name the file ExcelLabAssignment-*studentName1-studentName2*.

You may work with one partner on this lab assignment. Please be sure that both of you submit something. One of you should submit the homework and a comment that you are submitting on [name of other student]'s behalf. One of you should submit a comment that [name of other student] is submitting on your behalf.
